Help your customers get the full value of their SiriusXM trial by following these quick steps for each delivery:

Resend signal: Turn on SiriusXM preview, use the SiriusXM Dealer Tool App to scan the VIN barcode (QR code for GM only) inside the driver's side door and send the signal. The refresh can take up to 5 minutes.

Preset Channels: Offer that extra level of personalization and preset your customers' channels before delivery. Here are a few of our favourites:

Demonstrate SiriusXM: Make sure your customers are comfortable with the functionality of SiriusXM.

Distribute Channel Guide: With over 140 channels to explore, these documents are a great resource to ensure customers fully enjoy the SiriusXM experience.
