

We are taking the necessary precautions to get back to business. We've instituted **SAFETY FIRST**, a program which educates our Automotive Field teams on the important steps to take to stay healthy, and equips them with the appropriate tools to help keep our team, your employees and your customers safe.

Safety Protocol: Team Members will always be mindful of a given dealership's "house rules", follow COVID-19 rules and regulations set by local municipalities and ensure to come equipped with their sanitation kits prior to each visit.

Wearing masks and gloves during dealership visits

Keeping distance of at least 2 metres (6 feet) when speaking to staff

Wiping down and sanitizing any showroom surfaces touched

Disinfecting any keys or vehicles touched

Carrying sanitation kits including hand sanitizer and bags to dispose of any personal garbage

Staying informed

Required Safety Materials | Must have all items on hand to visit a dealership

FACE MASK
(approved face cover)

HAND SANITIZER

DISPOSABLE GLOVES

DISINFECTANT PRODUCTS

While the above precautions are based on guidelines recommended by the CCOHS and local governmental authorities, there is no guarantee that they will be 100% effective in preventing exposure to COVID-19. Further, the above information is not intended to be a substitute for professional medical advice, diagnosis, or treatment.
